

# Computer and Programming Club, Kishoreganj University

Date – 3 June, 2025

## NOTICE

This is to inform all students and interested participants that a Hands-On Training Session on Version Control Systems (VCS) will be held on 3rd June 2025 at 8:00 PM(online).

The session will be conducted by Abdullah Al Jahid, Software Engineer at Streams Tech Ltd. It is designed to provide both theoretical insights and practical experience with modern version control tools, focusing primarily on Git and GitHub.

### Key Highlights:

- Understanding Version Control and its importance
- Differences between Centralized and Distributed VCS
- Core Git concepts: repositories, branches, commits, merging, and conflict resolution
- Hands-on practice with Git commands and workflows
- Industry best practices, including Gitflow, pull requests, and code reviews

This training is ideal for students, aspiring developers, and professionals aiming to strengthen their software development skills using version control systems.

Don't miss this opportunity to enhance your technical expertise under expert guidance.

For any queries, please contact the organizing team.
